

Americans Speaking Out to Legalize Marijuana

Speak Out in Your Own Community Post Flyers and Stickers, Hand Out Legalize Cards

Our logo represents a sound wave – your own voice saying “legalize.” Marijuana legalization is a moderate, mainstream issue supported by millions of patriotic Americans from all walks of life. But too often we are intimidated into silence by corporate drug testing and government repression.

Legalize empowers ordinary individuals to speak out by providing flyers, stickers and promotional cards to be distributed and posted. The sight of young Americans taking a stand against injustice has an enormous impact on our fellow citizens. Our nationwide campaign to promote Legalize is a grassroots initiative to break the drug warriors' marketing monopoly, the glue that holds public opinion in place.

Legalize is an online community with a political agenda – to legalize marijuana and end the drug war, while keeping all other drugs illegal. We are twenty million pot smokers who have lost our God-given, constitutionally protected Rights. Legalize recognizes that we are a discriminated minority group, suffering under tyranny but determined to take back our liberty.
